Helpful Search Tips

SEARCH BY LAST NAME

On the **Sexual Offenders** Tab within the **Courts** menu, type the Subject's Last Name in the **Last Name** field, then CLICK on the Search button. If more records are returned than are practical to review, refine your search as described below.

REFINE A NAME SEARCH

Adding criteria, such as first name, middle name, or middle initial, refines a search. Keep in mind that some records may not contain a middle name or initial, so providing one could eliminate records you may want included.

SEARCH BY ADDRESS

On the **Sexual Offenders** Tab within the **Courts** menu, type the Address, City, and State in the appropriate fields, then CLICK on the

Search button. This returns records using that address. If more records are returned than are practical to review, refine your search as described below. To view results for an entire city, only put in the city and state. If you are unsure of the exact city, supply the closest city and specify a radius (no more than 100 miles). This expands the area considered to a circle extending the specified number of miles from the center of that city. To view results for an entire zip code, only put in the zip code.

NARROW LIST OF RESULTS

If your search returns a long list of results, we recommend adding the folio this order:

1. **First Name or First Initial** -If you are not sure of the entire first few letters in the **First Name** field.
2. **Middle Name or Initial** -If your results return multiple listings with the same first and last name, add the Subject's middle name or initial. Remember that some records do not contain middle names or initials and will be excluded.
3. **City and State or Zip Code** -If your results return multiple listing last names, add the City and State or the Zip Code.

EXPAND LIST OF RESULTS

If too few or no results are returned, loosen the criteria by removing the most precise or uncertain criteria (e.g., middle name or initial).

FIND A RECORD IN THE DISPLAYED LIST

Identify the number of unique individuals by examining the information listed. Examine the records to determine if the displayed information fits what is known about the Subject.
